## FOREWORD

The California State Division of Forestry has the primary financial responsibility of preventing and suppressing forest fires upon the following lands within the State of California; excluding those lands owned or controlled by the Federal Government or any agency thereof or within the exterior boundaries of incorporated cities.

- (a) Lands covered wholly or in part by forests or by trees producing or capable of producing forest products.
- (b) Lands covered wholly or in part by timber, brush, undergrowth, or grass, whether of commercial value or not, which protect the soil from excessive erosion, retard runoff of water or accelerate water percolation, where such areas are sources of water which is available for irrigation or for domestic or industrial use.
- (c) Lands in areas which are principally used or useful for range or forage purposes which are contiguous to the lands described in sections (a) and (b) above.

Those lands described in (a) and (b) are known as Zone I and are also termed Clarke-McNary lands after the federal law recognizing the National interest in these primary timber and watershed areas. Under the Clarke-McNary Law, the State of California receives reimbursement from the federal government on a percentage of State expenditures for protection of these lands.

Those lands described in (c) are known as Zone II and are situated usually between the Zone I Clarke-McNary lands and the valley floor. These lands have no federal interest.

Those valley lands having no State or Federal interest in timber, watershed, range or erosion are the fire protection responsibility of local agencies and are known as Zone III.

The State of California contracts with the United States Forest Service and with the six independent counties of Kern, Los Angeles, Ventura, Santa Barbara, San Mateo and Marin for the fire protection of those state financial responsibility lands located within their protection boundaries. In turn, certain federal agencies, Bureau of Land Management, Bureau of Indian Affairs and United States Forest Service--contract to the State the fire protection of those federal lands which are intermingled with the State financial responsibility lands.

The State Division of Forestry also contracts with counties for Zone III protection where the State is already protecting mountain areas and is established in the fire protection business. Through these contracts, the State does the entire protection job and is reimbursed by the county concerned for the effort expended on non-state interest land.

Except where specifically noted, the tabulations in this book are derived from reportable action on fires occurring on lands situated in the Zone I, II and III areas directly protected by the Division of Forestry.

Not reported here are fires upon lands protected by other agencies such as the United States Forest Service, counties having their own forest protection facilities, fire districts, and city fire departments, except as noted.

Fire suppression action by State crews on these lands is shown. Action by these agencies upon State direct protection lands is also shown.

STATEWIDE TOTAL	23,337,769	9,740,000

Zone I & 2 Areas:

Generally speaking, the gross land area between the Zone 2-3 boundary and the USFS-CDF protection boundary, including intermingled Federal lands (with the exception of military). In counties where National Forests are absent the acreage figures are the gross Zone I and 2 areas, including intermingled Federal lands.

Zone 3 Areas:

The gross agricultural and rural land areas in counties having a Schedule A protection agreement with the CDF.
